

Supplementary Sheet

Following seven graphs shows the count of houses sold for seven towns. Different colors in the graphs represents months which are plotted for all ten years from 2010 to 2020 according to the Irish house price register.

As the years are passed there is continuous increase in the sale of houses in town Leixlip while in Kenmare there is no particular trend followed. For rest of the towns a decrease can be seen in the year 2020 which can be caused due to the current situation of COVID pandemic.
